We Want You To Know:

This yearbook is our contribution to Daniel Murphy. We hope that it will amuse, inform, and maybe even edify those who read it. Not an absolutely necessary project, the Calarogan is meant to help the school by showing others that we have a just pride in what we do here.

IN CASE YOU'RE INTERESTED . . .

We have invested a great deal of time and work in this yearbook, and some of us have incurred nerve damage trying to meet the deadlines of the publisher. Probably the only deadline we did meet was the final one, and that was only because the only alternative was getting this thing sometime in March or April of 1969.

FURTHERMORE . . .

By tradition a yearbook should contain at least the picture and name of every student, a little information about the graduates, and some record of what went on during the year. Well, we got the mug shots OK, but we had some problems with the senior section. Somebody switched one guy's birthplace with his memories, so A. K. Forthman almost ended up being born in Conter's garage. However, the real test came in trying to put down what went on between September '66 and the middle of March '67 when we went to press. Involved was a very complicated process, conjured up by our mad editor during a nightmare. For the most part it was a matter of figuring out what should go where, de-

signing the layouts of the pages, choosing pictures to fit the pages, and then trying to fix up the mess we made.

This brings me to another point. We are sorry if we made any mistakes. We are sorry if we misspelled your name. And if we left you out, it was probably only because we didn't know your name.

FINALLY . . .

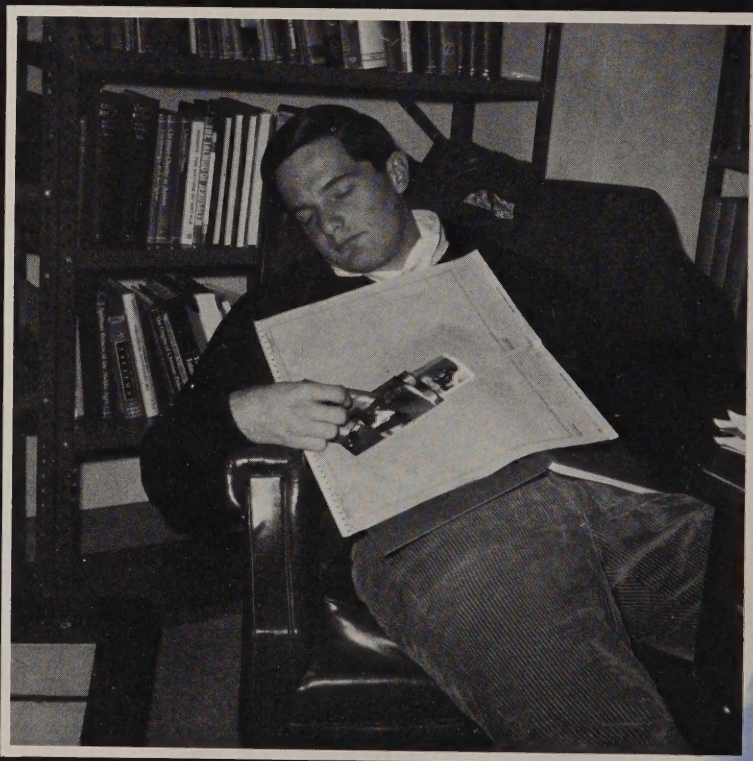

Special thanks . . .

. . . to Mr. L. D. Stumpf, the editor's father, without whose brilliant artwork this yearbook would be un-artworked.

. . . to Scott Stumpf, the editor's brother, whose superior judgment and critical analysis was about the best superior judgment and critical analysis the editor could get.

. . . to Jonas Butkus and his magic slide rule, without whom these pictures would not be cropped, cut, mangled, or otherwise fit into place.

. . . to Frank Mortz for his unceasing cheerfulness and sense of humor—even two days before the final deadline, with fifty-one pages yet undone, he found time to laugh and write drivels like this.

"... we have a just pride in what we do."

On Move

A black and white photograph of a man's head and shoulders in profile, facing right. He has dark, wavy hair and is wearing a light-colored shirt. The background is out of focus, showing some architectural lines. A motivational quote is printed in the lower right area of the image.

The path to success is open to everyone;
If you have courage, ambition, and will
power, you can't help but reach your goal.

Power to spare...formula S package disc brakes, options without end. Looks that can't be matched...fastback, hardtop, and convertible...they're America's lowest priced, personal cars with everything going for them. Right now, you can get away with a Barracuda at a price you wouldn't believe possible.
